Australia/NZL!**

**Hormonal Health**

Hormones play an important role in human health, regulating a vast array of psychological and physiological functions. In fact, many low-grade symptoms of hormonal imbalance in early life can be the precursors of more serious conditions in later years. Therefore, maintaining hormone balance can help insure better overall health. This is why New Vision Australia has developed Gestone, a natural solution to help obtain and maintain hormonal balance.

Four years and 66 clinical trials in the making, Gestone is a proven product that utilises a proprietary blend of wild yam extract, aloe vera gel, evening primrose oil and lemongrass. Integral to achieving optimal benefits from Gestone is ensuring that just the right levels exist in the product. New Vision Australia goes the extra mile by using wild yam extract manufactured in Australia with a proprietary harvesting and extraction process. Add Gestone to your order today, and feel the impressive results that may include relief of pre-menstrual syndrome and menstrual pain and cramps.

**Here What Others Say About Gestone....**

**Osteoporosis improves...**

"I have been a patient of Dr. Chris Spalding for more than a year and have used his cream all of that time and felt great benefit from it. Since 1988 I have had bone density tests because I have osteoporosis and they have shown steady loss. After using the cream for six months, the tests then showed an improvement. Thank you, Dr. Spalding." **Mrs. Josie Geen.**

**My energy has improved...**

"I am delighted with your cream. My energy level has increased, making me more positive. As a result, I am coping better with day to day living and achieving more. My concentration and self discipline have improved. My hair and skin which were becoming dry have improved markedly. All in all it has made a considerable difference to me." **Mrs HLK.**

**33 year old sees improvement in weeks..**

"I am 33 years old and have had incredible results from the use of your cream. At the age of 30 my husband and I started our family. We now have two children. During this time I noticed changes in myself such as; temperament fluctuations, fatigue, aches and pains, weight gain, addiction to sugar and menstrual irregularities. I then become aware of hormonal imbalances and their symptoms. Every one of my problems, including possible signs of osteoporosis, related to hormonal imbalance. Within three weeks of using your cream intensively, I was incredibly calm, facing stressful issues with a smile and my sweet food addiction had dwindled. Over the following few months my menstrual cycle has become shorter and more manageable and I am continuing to lose weight. I pray many more people will acquire the knowledge of 'the sea of oestrogens' and the problems being caused in our world today." **Mrs. K.A. Liersch.**
