Many menopausal symptoms had started to appear over the last year. All of these symptoms have improved since taking Liquid Essentials for Women. I believe that it is the combination of good basic nutritional supplementation in conjunction with this women's formula that has brought the success in overcoming those symptoms. As with all supplementation consistency in taking the product is critical!\*

Within 3-4 days on the product I started to be able to sleep. Prior to that I had tried everything. Nothing worked. I would lie awake at night exhausted. Now, having a period is not such an inconvenience or irritation but rather a "part of life". My sense of humor is returning and so is my ability to enjoy life again!\*
